Specialized Cameras and Video Recorders

A discreet solution for recording and monitoring

**Cameras and
Video Recorders**

SD Series Spy Cameras

- Spy cameras are used to photograph or record subjects without their knowledge. The camera may be considered "hidden" because it is not visible to the subject being filmed, or is disguised as another object. Hidden cameras are often considered a surveillance tool, and is widely deployed by intelligence agencies, law enforcement, security task forces, etc.

- We provide spy cameras in shapes and forms of daily items, such as glasses, cigarette boxes, watches and lighters, jackets and hats, so that they're highly undetectable and hard to notice, to ensure the operative's safety and the success of the mission.

- The following products listed below, are equipped with full HD high-quality audio and video synchronous camera, with hidden holes for convenient operations, and are highly customizable.
